3200 Lumens H7 LED with Cooling Fan

Big Bike Parts® updated its extremely popular 10-107 H7 LED replacement bulb, increasing from 2000 lumens to 3200 lumens with a bright white 6000K color. Big Bike Parts® was able to accomplish this 60% increase in lumens and brightness due to their design capability and collaboration with their LED engineers to use the latest in LED technology. By building the LED driver into the cooling fan assembly, components are minimized, making this new design much more compact than others.

3200 Lumens H7 LED Bulb with Cooling Fan	10-107A	Each	\$55.95

Brighter & More Compact H4 LED Bulb

Big Bike Parts® has made many improvements to its popular fan-cooled H4 LED bulb. They have managed to get more output, expanding to 3200 lumens in both high and low beam. The same bright white 6000K color temperature now has an all new die cast aluminum cooling fan. In addition to increasing lumens, Big Bike Parts® has been able to build the LED driver into the housing, removing the external driver from the cord. This allows the H4 LED to be very compact while delivering 3200 lumens in a fan-cooled unit. The optimal design continues to keep Big Bike Parts® LED lighting a step above others.

Fitment	Part No.	Unit	MSRP
LED H4 Bulb	10-106A	Each	\$65.95

MR16 LED Bulb

Big Bike Parts® introduced the MR16 LED bulb in 2015, it now delivers an additional 90 Lumens at 490 Lumens, and gives off a bright 5000K color temperature. This allows the H4 LED to be very compact while delivering 3200 lumens in a fan-cooled unit. The optimal design continues to keep BBP LED lighting a step above others. The dimmable design of this bulb also delivers less feedback to weak radio signals, making this a great upgrade to many of Big Bike Parts® 16-104A Mini LED Driving Light Kits sold over the years.

Fitment	Part No.	Unit	MSRP
MR16 LED Replacement Bulb	10-1625A	Each	\$15.95

Upper & Lower Wind Deflectors for 2018 Honda GL1800

A true motorcycle accessory not only must do what it was designed to do, but it needs to look good while doing it. The old adage Form Follows Function, is a constant design practice at Big Bike Parts®, and this cannot be more evident than in the most recent Wind Deflectors for the GL1800. A true Wind Deflector will deflect as much weather away from the rider pocket as possible while allowing the ability to bring air in at various angles for comfort. Show Chrome Accessories® Upper and Lower Wind Deflectors do all of this very well.

The 6 1/2" x 8 1/2" upper deflector panel mounts below the mirror with a custom pivot bracket, allowing 125° of rotation. The lower deflector is a functional 5" x 16 1/2" tall panel, providing 110 degree of rotation for the rider. Both are dark smoke and easy to install with only 2 mounting holes per panel.

Magnetic Oil Drain Plug

Big Bike Parts® has a new Extended Magnetic Oil Drain Plug that fits the 2014 and newer Spyders that have the 1330cc Rotax engine. This would include models since the 2014 RT and 2015 F3. This almost 1" longer plug matches the OEM and reuses the OEM O-ring for seating. The best way to prolong life is to identify an issue before it is a problem. That is exactly what Magnetic Drain Plugs can do for your engine. Magnets attract and hold ferrous metal particles that are floating around in your engine. So at fluid / oil change time you can inspect the plug for ferrous metals in your oil. Having ferrous metal on the magnet can be an indicator of an impending problem of cams, rings, rods or shafts that may need servicing. In most cases an oil analysis can tell you what type of metal and what it is from, pointing you in the correct direction.

Dual Function Fog Lights

Big Bike Parts® designs another market leading Fog Light Kit for the new 2018 Yamaha Star Venture / Eluder. Big Bike Parts® analyzed the OEM assemblies and dramatically increased the brightness with the use of better LED's and reflectors. Adding a day time running light within the fog light assembly through a splice to the key switch circuit, so when the fogs are turned off the day time running lights are still on. Utilizing the onboard OEM switch and switch wire harness makes the fog light portion plug-n-play with the included relay to complete the install process. These fog lights are both DOT and E-mark approved and deliver 6000K light.

Black Classic Tuxedo Tie for Yamaha Star Venture/Eluder

Big Bike Parts® expands the choices for the new Star Venture and Star Eluder with the Hopnel™ Black Classic Tuxedo Tie, with or without a pouch. Based on the location of the headset plug on the Venture and Eluder, the cord will quickly scuff the gas tank finish making the addition of a Hopnel™ Tuxedo Tie a necessity to protect your tank from wear. The Tuxedo Tie hook and loop cord keeper not only protects the tank from scuffs, but the Tuxedo Tie with pouch adds a great storage pocket for your cellphone, garage door opener or other conveniently needed items. Hopnel™ designed two options, one with and one without the pouch, to provide choices for riders. Provides a generous 8" x 4½" x 1½" EZ mount storage pouch. The Star Venture/Eluder Tuxedo Tie is tailored to fit under the forward gas tank shroud to match the natural lines of the bike well providing a secure fit, yet allowing easy removal for cleaning and service. Made in the USA.
